EDUCATION

PES College of Engineering	2019-2023
<i>B.E. Electronics and Communication</i>	CGPA – 6.54
Alvas Pre-University College	2017-2019
<i>Physics, Chemistry, Maths, Biology</i>	Percentage – 69.83

Training

Jspiders Rajajinagar / <i>Java Full Stack Developement</i>	DEC 2023 – Present
<ul style="list-style-type: none">Actively working and learning to backend development using technologies like Spring Boot, Hibernate, Servlet, Spring.Actively working in frontend development with React.js for feature enhancements, bug fixes, and proof-of-concepts in an internal product.Actively collaborating with teams to troubleshoot issues and deliver effective solutions, promoting teamwork	

PROJECTS

Design and implementation of cognitive mapping unit / <i>Verilog-HDL</i>	May 2023
<ul style="list-style-type: none">Cognitive mapping units(CMUs) enhance data visualization and navigation, aiding decision-making across Diverse domains by offering intuitive interfaces.They facilitate efficient exploration of complex datasets, supporting informed decision-making through clear Data presentation and customization options.Integration with existing systems ensures seamless workflow incorporation, while continuous refinement based on user feedback optimizes usability and effectiveness over time.	
Simple Blog App / <i>HTML/CSS, Reactjs Git, VS Code, Appwrite</i>	May 2024
<ul style="list-style-type: none">The Simple Blog App provides user authentication through email, username, and password, allowing seamless Sign-up and sign-in processes.Users can browse blog posts from all other users, create new posts, and manage their own content by updating or deleting posts.Emphasizing basic CRUD operations, the app ensures efficient management of blog content while also offering a log-out option for user convenience and security.	
Personal Portfolio Website / <i>HTML, CSS, Javascript</i>	Mar 2024
<ul style="list-style-type: none">Created a Spring Boot-based application with a JavaScript-based flexible user interface that makes it easy for users to look up recipes. Integrated MySQL to store and retrieve recipe data from multiple sources with ease and give users access to a compiled list of a variety of recipe actively researched and utilized JDBC to interface with databases in the project's Java and Spring Boot sections. gained expertise in data transaction management, connection setup, and query execution, which helped to improve the project's overall functionality.	

SKILLS

Languages: Java
Framework and Libraries: JDBC, Servlet, SpringBoot
Web Development : HTML, CSS, Javascript, React.js
Databases: SQL, MySql
Development: Git/GitHub, OOPS, VS Code.

Declaration

I here by declare that all the details furnished above are True to the best of my knowledge.
